

QURATE RETAIL GROUP STATEMENT OF VOLUNTARY CARBON MARKET DISCLOSURES

(a) The name of the business entity selling the offset and the offset registry or program.

QVC Handel S.à r.l. & Co. KG (“QVC Germany”) voluntarily purchases carbon offsets from atmosfair gGmbH, a German non-profit organization involved in CO₂ mitigation activities in over 20 countries, to support the goal of providing carbon neutral shipping through CO₂-offsetting to QVC Germany customers. These carbon offsets are registered in the Gold Standard Impact Registry.

(b) The project identification number, if applicable.

The Gold Standard Impact Registry identification number is 3110.

(c) The project name as listed in the registry or program, if applicable.

The project name is Nepal Biogas Support Program – PoA (Programme of Activities).

(d) The offset project type, including whether the offsets purchased were derived from a carbon removal, an avoided emission, or a combination of both, and site location.

The purchased offsets are derived from avoided emissions. According to the United Nations Framework Convention on Climate Change’s Clean Development Mechanism (CDM) programme design document, “the Biogas Support Program aims at implementing household biogas applications. These applications displace firewood and fossil fuels with biogas from animal waste and human excreta. The biogas is used as a fuel for cooking, therefore the displacement of non-renewable biomass (NRB) is counted as emission reduction under the Clean Development Mechanism.” The project is distributed among various sites in rural regions of the country of Nepal. The project has been verified by the Gold Standard for Global Goals and is part of the United Nations Framework Convention on Climate Change’s Clean Development Mechanism (CDM) program.

(e) The specific protocol used to estimate emissions reductions or removal benefits.

Nepal’s Alternative Energy Promotion Centre (AEPC) estimates emissions reductions using the protocol AMS-I.E. Switch from Non-Renewable Biomass for Thermal Applications by the User (Version 09.0).

(f) Whether there is independent third-party verification of company data and claims listed.

QVC Germany has not obtained independent third-party verification of company data or claims made.
